* The loans originally funded by the 1990 A & B Bonds were transferred to 2000 A Bonds as a result of the refunding of the 1990 Bonds by the 2000 A Bonds.

CURRENT CROSS CALLING PRACTICES: For prepayments of loans that were funded by bonds sold prior to 1993 and that are eligible for cross-calling and recycling, i.e., they meet the requirements of the 10-year rule, and for excess revenues generated by all bonds – Generally, the Authority will use these funds to call the highest yielding outstanding bonds, regardless of when they are issued. For prepayments of loans that were funded by bonds sold after 1993 and that are eligible for cross-calling and recycling – To date the Authority has not used any of these funds for cross-calling and although there are currently no plans to change this practice, it may change in the future.

Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described in this paragraph and the next succeeding paragraph, the 1991 Series A Bonds are redeemable, at any time in whole or in part at the option of the Authority, at the principal amount thereof plus accrued interest to the redemption date in the case of Current Interest Paying Bonds and at the appreciated amount thereof in the case of Capital Appreciation Bonds, in an amount not in excess of the total of (1) principal prepayments (including principal prepayments in respect of mortgage loans financed from other series of Bonds) and (2) Revenue (derived in connection with the 1991 Series Bonds or other series of Bonds issued under the indenture) in the General Receipts Fund. The 1991 Bonds to be redeemed shall be selected from the outstanding maturities of 1991 Bonds on such basis as shall be determined by the Authority except as otherwise described in the following paragraph.

The 2010 Term Bonds and the 2014 Term Bonds are subject to mandatory redemption in whole or in part at the principal amount thereof plus accrued interest to the redemption date on each interest payment date on an after December 1, 1991 in amounts equal to the aggregate amounts set forth in the 1991 Series Resolution (the "Mandatory Amounts") from principal prepayments received in respect of 1991 mortgage loans as follows: First, to redeem 2010 Term Bonds for so long as any such 2010 Term Bonds are outstanding, and thereafter, to redeem 2014 Term Bonds. The 2010 Term Bonds and the 2014 Term Bonds are subject to mandatory redemption in whole or in part at the principal amount thereof plus accrued interest to the redemption date on each interest payment date from principal prepayments on 1991 mortgage loans in excess of the Mandatory Amounts in an amount for each such Term Bond that is not less than the amount which would be redeemed if Outstanding Current Interest Paying Bonds and original principal amount of Outstanding Capital Appreciation Bonds were redeemed with such excess principal prepayments on a reasonably proportionate basis among all maturities thereof. The Mandatory Amounts were established on the basis of certain assumptions, including the receipt by the Authority of principal prepayments on 1991 mortgage loans in each such semiannual period equal to 100% of FHA prepayments experience published in 1989.

Optional Redemption Provisions: March 1, 2001 @ 102%, March 1, 2002 @ 101% and March 1, 2003 at par.

10-Year Rule Requirement: The percentage of mortgage principal receipts from loans funded by 1991 Series A Bonds that are restricted pursuant to the 10-year rule increased to 100% on December 28, 1999.

Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described in this paragraph and the next succeeding paragraph, the 1992 Bonds are redeemable, at any time, at the option of the Authority, at the principal amount thereof plus accrued interest to the redemption date in an amount not in excess of the total of (1) principal prepayments (including principal prepayments in respect of mortgage loans financed from other series of Bonds) and (2) Revenues (derived in connection with the 1992 Bonds or other series of Bonds) in the General Receipts Fund. The 1992 Bonds to be redeemed shall be selected from the outstanding maturities of 1992 Bonds on such basis as shall be determined by the Authority except as otherwise described in the next succeeding paragraph.

The 2018 Term Bonds are subject to mandatory redemption in whole or in part at the principal amount thereof plus accrued interest to the redemption date, in amounts equal to the aggregate amounts provided for in the 1992 Series Resolution (the "Mandatory Amounts"), from principal prepayments received in respect of 1992 mortgage loans. The 2018 Term Bonds are subject to mandatory redemption in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time, from principal prepayments on 1992 mortgage loans in excess of the Mandatory Amounts in an amount for the 2018 Term Bonds that is not less than the amount which would be redeemed if Outstanding 1992 Bonds were redeemed with such excess principal prepayments on a reasonably proportionate basis among all maturities thereof. The Mandatory Amounts were established on the basis of certain assumptions, including the receipt by the Authority of principal prepayments on 1992 mortgage loans in each semiannual period equal to 100% of FHA prepayment experience published in 1991. The 1992 Series Resolution provides that the Mandatory Amounts are cumulative, i.e., each Mandatory Amount is the aggregate amount of 2018 Term Bonds required to be so redeemed to the extent moneys are available therefore, on or before such interest payment date.

Optional Redemption Provisions: June 1, 2002 @ 102%, June 1, 2003 @ 101% and June 1, 2004 at par.

Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described herein, the 1994 Bonds are redeemable, at any time, at the option of the Authority, at the principal amount thereof in an amount not in excess of the total of (1) Principal Prepayments (including Principal Prepayments in respect of Mortgage Loans financed from other series of Bonds) and (2) Revenues (derived in connection with the 1994 Bonds or other series of Bonds) in the General Receipts Fund. The 1994 Series A Resolution and the 1994 Series B Resolution (hereinafter referred to as the "1994 Resolutions") provide, subject to a *de minimus* exception, that *unless* the Authority receives an opinion from bond counsel to the effect that failure to do so will not adversely affect the exclusion of interest on the 1994 bonds from gross income for Federal income tax purposes, the Authority shall redeem (or pay scheduled maturities of) 1994 Bonds with Principal Prepayments and regularly scheduled principal repayments received on or after the tenth anniversaries of the respective dates of issuance of the bonds refunded by the 1994 Bonds. With respect to redemptions described above, the 1994 Bonds to be redeemed shall be selected from either series and from the Outstanding maturities of either series on such basis as shall be determined by the Authority except as otherwise described below.

The 1994 Series B 2020 Term Bonds and the 1994 Series A 2024 Term bonds (the "Super Sinker Bonds") are subject to mandatory redemption from Principal Prepayments received with respect to 1994 Mortgage Loans (only to the extent actually received and not otherwise required to pay debt service on Bonds) in whole or in part at the principal amount thereof, at any time (but at least once during each six month period ending on a June 1 or a December 1), in the aggregate amount during such six month period equal to the "Mandatory Amount" for such semiannual period, less the aggregate principal amount of Super Sinker bonds previously redeemed pursuant to this provision. The Super Sinker bonds are to be redeemed in the following order of priority: First, the 1994 Series B 2020 term Bonds, and second, the 1994 Series A 2024 Term Bonds. The Super Sinker Bonds are also subject to mandatory redemption in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time, from Principal Prepayments received with respect to 1994 Mortgage Loans in excess of the applicable amount required to be applied to redeem the Super Sinker Bonds as described in the second preceding sentence (if such principal prepayments are not otherwise required to pay debt service on Bonds) in an amount that is not less than the amount which would be redeemed if Outstanding 1994 Bonds were redeemed with such excess Principal Prepayments on a reasonably proportionate basis between both series thereof, and within each series among all maturities thereof, based upon the then Outstanding principal amounts thereof.

Optional Redemption Provisions: June 1, 2004 @ 102%, June 1, 2005 @ 101% and June 1, 2006 at par.

10-Year Rule Requirement: On July 19, 1998, the percentage of mortgage principal receipts from loans funded by the 1994 Series A and B Bonds that is restricted by the 10-year rule increased to 94%. It will increase in several steps over the next several years until reaching 100% on May 14, 2002.

Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described herein, the 1994 Series C and D Bonds are redeemable, at any time, at the option of the Authority, at the principal amount thereof in an amount not in excess of the total of (1) Principal Prepayments (including Principal Prepayments in respect of Mortgage Loans financed from other series of Bonds) and (2) Revenues (derived in connection with the 1994 Series C and D Bonds or any other series of Bonds) in the General Receipts Fund. The 1994 Series C and D Resolutions provide, subject to a *de minimus* exception, that *unless* the Authority receives an opinion from bond counsel to the effect that failure to do so will not adversely affect the exclusion of interest on the 1994 Series C and D Bonds from gross income for Federal income tax purposes, the Authority shall redeem (or pay scheduled maturities of) 1994 Series C and D Bonds with Principal Prepayments and regularly scheduled principal repayments received on and after the tenth anniversaries of the respective dates of issuance of the bonds refunded by the 1994 Series C and D Bonds in the case of 1994 Series C and D Mortgage Loans financed from that portion of the proceeds of the 1994 Series C and D Bonds allocated to the replacement of moneys which will be used to redeem or pay at maturity bonds previously issued by the Authority and the tenth anniversary of the date of issuance of the 1994 Series C and D Bonds in the case of all other 1994 Series C and D Mortgage Loans. With respect to redemptions described under this heading, the 1994 Series C and D Bonds to be redeemed shall be determined by the Authority except as otherwise described in the next succeeding paragraph.

The Super Sinker Bonds are also subject to mandatory redemption at any time, from Principal Prepayments received with respect to 1994 Series C and D Mortgage Loans in excess of the Mandatory Amount (not otherwise required to pay debt service on Bonds) in an amount that is not less than the amount which would be redeemed if Outstanding 1994 Series C and D Bonds were redeemed with such excess Principal Prepayments on a reasonably proportionate basis among all outstanding bonds.

Optional Redemption Provisions: December 1, 2004 @ 102%, December 1, 2005 @ 101% and December 1, 2006 at par.

10-Year-Rule Requirement: On March 29, 2000, the percentage of mortgage principal receipts from loans funded by the 1994 Series C and D Bonds that is restricted pursuant to the 10-year rule increased to 39%. Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described in this paragraph and the next two succeeding paragraphs, the 1995 Series A and B Bonds are redeemable, at any time at the option of the Authority, in a principal amount not in excess of the total of (i) Principal Prepayments (including Principal Prepayments in respect of Mortgage Loans financed from other series of Bonds) and (ii) Revenues (derived in connection with the 1995 Series A and B Bonds or other series of Bonds) in the General Receipts Fund. The 1995 Series A and B Resolutions provide, subject to a *de minimus* exception, that *unless* the Authority receives an opinion from bond counsel to the effect that failure to do so will not adversely affect the exclusion of interest on the 1995 Series A and B Bonds from gross income for federal income tax purposes, the Authority shall redeem (or pay scheduled maturities of) 1995 Series A and B Bonds with Principal Prepayments and regularly scheduled principal repayments received with respect to 1995 Series A and B Mortgage Loans on and after the tenth anniversaries of the respective dates of issuance of the bonds refunded by the 1995 Series A and B Bonds in the case of 1995 Series A and B Mortgage Loans financed from that portion of the proceeds of the 1995 Series A and B Bonds allocated to the replacement of moneys which will be used to redeem or pay at maturity bonds previously issued by the Authority and the tenth anniversary of the date of issuance of the 1995 Series A and B Bonds in the case of all other 1995 Series A and B Mortgage Loans. With respect to redemptions described above, except as described in the next succeeding paragraph, the 1995 Series B 2024 Super Sinker Term Bonds shall not be subject to such redemptions until no other 1995 Series A and B Bonds are Outstanding. Except as otherwise described in the preceding sentence and the next two succeeding paragraphs, with respect to redemptions described under this heading, the 1995 Series A and B Bonds to be redeemed shall be selected from either series and from the Outstanding maturities of either series on such basis as shall be determined by the Authority.

The 1995 Series B 2024 Super Sinker Term Bonds are subject to mandatory redemption from 75% of the Principal Prepayments received with respect to 1995 Series A and B Mortgage Loans not otherwise required to pay debt service on Bonds ("Available Principal Prepayments") at the principal amount thereof, at any time (but at least once during each six month period ending on a June 1 or a December 1), in the aggregate amount during such six month period equal to the "Mandatory Amount", less the aggregate principal amount of 1995 Series B 2024 Super Sinker Term Bonds previously redeemed pursuant to this provision. The Mandatory Amounts were established on the basis of certain assumptions, including assumptions regarding the origination of 1995 Series A and B Mortgage Loans at certain interest rates pursuant to a certain schedule. The Mandatory Amounts represent approximately three-quarters of the prepayments anticipated at 65% of the Public Securities Association's standard prepayment model for 30-year mortgage loans, on a cumulative basis. The Mandatory Amounts are set forth on page 38.

The 1995 Series A 2016 Super Sinker Bonds are subject to mandatory redemption from all Available Principal Prepayments in excess of the amount applied to redeem 1995 Series B 2024 Super Sinker Term Bonds as described in the preceding paragraph, at the principal amount thereof, at any time (but at least once during each six month period ending on a June 1 or December 1).

Optional Redemption Provisions: June 1, 2005 @ 102%, June 1, 2006 @ 101% and June 1, 2007 at par.

10-Year Rule Requirement: On March 29, 2000, the percentage of mortgage principal receipts from loans funded by the 1995 Series A and B Bonds that is restricted to the 10-year rule increased to 78%. It will increase to 100% on March 8, 2005.

The 1996 Series A and B Resolutions provide, subject to a *de minimus* exception, that *unless* the Authority receives an opinion from bond counsel to the effect that failure to do so will not adversely affect the exclusion of interest on the 1996 Series ABC Bonds from gross income for federal income tax purposes, the Authority shall redeem (or pay scheduled maturities of) 1996 Series A and B Bonds with Principal Prepayments and regularly scheduled principal repayments received with respect to 1996 Series A and B Mortgage Loans on and after the tenth anniversaries of the respective dates of issuance of the bonds refunded by the 1996 Series A and B Bonds in the case of 1996 Series A and B Mortgage Loans financed from that portion of the proceeds of the 1996 Series A and B Bonds allocated to the replacement of moneys which will be used to redeem or pay at maturity bonds previously issued by the Authority and the tenth anniversary of the date of issuance of the 1996 Series B Bonds in the case of all other 1996 Series A and B Mortgage Loans. Except as otherwise described in the following paragraph, the 1996 Series A and B Bonds to be redeemed shall be selected from any series and from the Outstanding maturities of any series on such basis as shall be determined by the Authority, except that the 1996 Series B 2026 Term Bonds shall not be subject to such redemption until no other 1996 Series A or B Bonds are outstanding.

The 1996 Series B 2026 Term Bonds are subject to mandatory redemption from the Principal Prepayments received with respect to 1996 Series A and B Mortgage Loans (only to the extent actually received and not otherwise required to pay debt service on Bonds) in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time or times (but at least once during each six month period ending on a June 1 or a December 1), in the aggregate amount during such six month period equal to the Mandatory Amount as set forth on page 36, less the aggregate principal amount of 1996 Series B 2026 Term Bonds previously redeemed pursuant to this provision. The Mandatory Amounts were established on the basis of certain assumptions, including assumptions regarding the origination of 1996 Series A and B Mortgage Loans at certain interest rates pursuant to a certain schedule. The Mandatory Amounts represent the prepayments model for 30-year mortgage loans, on a cumulative basis.

Optional Redemption Provisions: June 1, 2006 @ 102%, June 1, 2007 @ 101% and June 1, 2008 at par.

10-Year Rule Requirement: On March 29, 2000, the percentage of mortgage principal receipts from loans funded by the 1996 Series A and B Bonds that is restricted pursuant to the 10-year rule increased to 61%. It will increase to 69% on September 12, 2000, 72% on September 29, 2004 and 100% on May 16, 2006.

BOND SERIES: 1996 Series D and E

LIST OF UNSCHEDULED REDEPMTIONS: See pages 40 and 41.

Special Redemption Provisions: There are no uncommitted original bond proceeds. Except as otherwise described herein, the 1996 Series D and E Bonds are redeemable, at any time in whole or in part, at the option of the Authority, at par in an amount not in excess of the total of (i) Principal Prepayments (including Principal Prepayments in respect of Mortgage Loans financed from the 1996 Series D and E Bonds and other series of Bonds), and (ii) Revenues (derived in connection with the 1996 Series D and E Bonds or other series of Bonds) in the General Receipts Fund. "Revenues" is defined to include amounts transferred to the Redemption Fund from the Capital Reserve Fund.

Pursuant to the requirements of the 10-year rule, approximately the following percentages of mortgage principal payments received must be applied to retire 1998 Series D and E Bonds: 10-29-96 to 12-01-99 - 19%; 12-02-99 to 12-01-03 - 37%, 12-02-03 to 06-01-06 - 41%; 06-02-06 and thereafter - 100%.

The 1996 Series E 2018 Term Bonds are super sinker bonds and are only subject to redemption in an amount equal to the lesser of (a) the difference between the Cumulative Mandatory Amount as shown on page 41 and the amount of 2018 Term Bonds theretofore called for redemption or (b) the total amount arrived at by multiplying the amount of prepayments received during the following respective periods by the following percentages:

October 29, 1996 to December 1, 1999	- 19%
December 2, 1999 to December 1, 2003	- 37%
December 2, 2003 to June 1, 2006	- 41%
June 2, 2006 thereafter	- 100%

If there is a redemption of any bonds due in 2027, such redemption shall be made on a prorata basis between the June 1, 2027 and December 1, 2027 maturities based on the outstanding amounts of such bonds.

Optional Redemption Provisions: December 1, 2006 @ 102%; December 1, 2007 @ 101% and December 1, 2008 at par.

10-Year Rule Requirement: On March 29, 2000, the percentage of mortgage principal receipts from loans funded by the 1996 Series D and E Bonds that is restricted pursuant to the 10-year rule increased to 30%. It will increase to 37% on September 12, 2000, 40% on September 29, 2004 and 100% on October 29, 2006.

INDENTURE: Single Family Mortgage Revenue Bonds
BOND SERIES: 1997 Series A and B

LIST OF UNSCHEDULED REDEPMTIONS: See pages 43 and 44.

Special Redemption Provisions: There are no uncommitted original bond proceeds. *Except* as otherwise described in this paragraph, the 1997 Series A and B Bonds are redeemable, at any time in whole or in part, at the option of the Authority, at the principal amount thereof plus accrued interest to the redemption date in a principal amount not in excess of the total of (i) moneys with respect to the same series of the 1997 Series A and B Bonds which are deposited in the Bond Proceeds Fund for the origination of 1997 Series A Mortgage Loans and 1997 Series B Mortgage Loans and which remain uncommitted to the financing of Mortgage Loans, on or after December 1, 1998, (ii) Principal Prepayments (including Principal Prepayments in respect of Mortgage Loans financed from the 1997 Series A and B Bonds and other series of Bonds), and (iii) Revenues (derived in connection with the 1997 Series A and B Bonds or other series of Bonds) in the General Receipts Fund.

The 1997 Series A Resolution provides, subject to a *de minimus* exception, that *unless* the Authority receives an opinion from bond counsel to the effect that failure to do so will not adversely affect the exclusion of interest on the 1997 Series A Bonds from gross income for federal income tax purposes, the Authority (a) shall redeem 1997 Series A Bonds within 42 months of the date of issuance thereof, with any unexpended lendable proceeds made available as a result of the issuance of the 1997 Series A Bonds, and (b) shall redeem (or pay scheduled maturities of) 1997 Series A Bonds with Principal Prepayments and regularly scheduled principal repayments received with respect to 1997 Series A Mortgage Loans on and after the tenth anniversaries of the respective dates of issuance of the bonds refunded by the 1997 Series A Bonds in the case of 1997 Series A Mortgage Loans financed from that portion of the proceeds of the 1997 Series A Bonds allocated to the replacement of moneys which will be used to redeem or pay at maturity bonds previously issued by the Authority and the tenth anniversary of the date of issuance of the 1997 Series A Bonds in the case of all other 1997 Series A Mortgage Loans.

With respect to redemptions of 1997 Series A and B Bonds pursuant to clause (i) and (a) above, the 1997 Series A and B Bonds to be redeemed shall be selected from both the applicable series, and from each eligible Outstanding maturity within such series, on a pro rata basis, based upon the ratio that the principal amount of the then Outstanding 1997 Series A and B Bonds of such series and maturity bears to the aggregate principal amount of the then Outstanding 1997 Series A and B Bonds of such series eligible for such redemption, *except* that the 1997 Series A 2026 Term Bonds shall not be redeemed from such sources until no other 1997 Series A Bonds are Outstanding. With respect to redemptions pursuant to clauses (ii) and (b) above, *except* as described in the succeeding paragraph, the 1997 Series A 2026 Term Bonds shall not be subject to such redemptions until no other 1997 Series A Bonds are Outstanding. *Except* as otherwise described in the two preceding sentences and the next succeeding paragraph, with respect to redemptions described under this heading, the 1997 Series A and B Bonds to be redeemed shall be selected from any eligible series and from the Outstanding maturities of any eligible series on such basis as shall be determined by the Authority.

The 1997 Series A 2026 Term Bonds and the 1997 Series B 2028 Term Bonds are subject to *mandatory* redemption from the Principal Prepayments received with respect to 1997 Series A and B Mortgage Loans (only to the extent actually received and not otherwise required to pay debt service on Bonds) ("Available Principal Prepayments") in whole or in part at the principal amount thereof plus accrued interest to the redemption date. The 1997 Series B 2028 Term Bonds are subject to such redemption, at any time or times (but at least once during each six month period ending on a June 1 or a December 1), in the aggregate amount during such six month period equal to 58% of Available Principal Prepayments through April 30, 2007, and thereafter, 16.6% of Available Principal Prepayments. The 1997 Series A 2026 Term Bonds are subject to such redemption at any time or times (but at least once during each six month period ending on a June 1 or a December 1), in the aggregate amount during each six month period equal to the lesser of (a) 42% of then Available Principal Prepayments, or (b) the amount for such semiannual period as set forth on page 43 (each, a "Mandatory Amount"), less the aggregate principal amount of 1997 Series A 2026 Term Bonds previously redeemed pursuant to this provision. The Mandatory Amounts were established on the basis of certain assumptions, including assumptions regarding the origination of 1997 Series A and B Mortgage Loans at certain interest rates pursuant to a certain schedule. The Mandatory Amounts represent 42% of the prepayments anticipated at 75% of the Public Securities Association's standard prepayment model for 30-year mortgage loans, on a cumulative basis. The Mandatory Amounts will not be adjusted upon a redemption of 1997 Series A and B Bonds from moneys attributable to such Bonds which are uncommitted to the financing of Mortgage Loans.

Optional Redemption Provisions: June 1, 2007 @ 102%, June 1, 2008 @ 101% and June 1, 2009 and thereafter at par, for all bonds except the Series A bonds maturing on December 1, 2028, which are not subject to optional call.

10-Year Rule Requirement: On March 29, 2000, the percentage of mortgage principal receipts from loans funded by the 1997 Series A and B Bonds that is restricted pursuant to the 10-year rule increased to 23%. It will increase to 31% on September 12, 2000, 35% on May 19, 2004, 40% on September 29, 2004 and will top out at 84% on May 27, 2007.

INDENTURE: Single Family Mortgage Revenue Bonds
BOND SERIES: 1997 Series C, D and E

LIST OF UNSCHEDULED REDEPMTIONS: See pages 46, 47 and 48.

Special Redemption Provisions: 1997 Series C,D, and E Bonds are subject to special redemption as described under this heading, at a redemption price equal to the principal amount thereof plus accrued interest to the redemption date.

Principal Prepayments. Except for certain maturities as described in the next succeeding paragraph and as described below under "Super Sinker Redemption," the 1997 Series C, D, and E Bonds are redeemable, at any time in whole or in part, at the option of the Authority, in a principal amount not in excess of principal prepayments (including principal prepayments received with respect to mortgage loans financed from any series of Single Family Mortgage Revenue Bonds), and the 1997 Series C, D, and E Bonds to be so redeemed shall be selected from any series and from the outstanding maturities of any series as shall be determined by the Authority.

The 1997 Series D June 2028 Term Bonds and the 1997 Series D December 2028 Term Bonds are subject to redemption from principal prepayments received with respect to any series of Bonds, but only on or after December 1, 2007, unless there are no other 1997 Series C Bonds and 1997 Series D Bonds outstanding and such redemption is required to satisfy the Ten-Year Rule (a Federal tax law that requires certain principal prepayments to be applied to redeem Series C and D Bonds). In addition to redemption as described below under "Super Sinker Redemption," the 1997 Series E 2028 Term Bonds are subject to redemption from principal prepayments received with respect to any series of Bonds, but only in an amount equal to the remainder, if any, of (i) the then-current 1997 Series E Current Mandatory Amount, less (ii) the remainder, if any, of the then-current Available Principal Prepayments, less the then-current Tax Required Prepayment Redemption Amount. The 1997 Series E 2004 Term Bonds are not subject to redemption from principal prepayments.

Super Sinker Redemption. The 1997 Series D 2027 Term Bonds and the 1997 Series E 2028 Term Bonds are subject to mandatory redemption from the principal prepayments received with respect to 1997 Series C, D, and E Mortgage Loans (but only to the extent actually received and not otherwise required to pay debt service on Bonds) ("Available Principal Prepayments") in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time or times (but at least once during each six-month period ending on a June 1 or a December 1), as described below. The 1997 Series D 2027 Term Bonds may only be redeemed from principal prepayments received with respect to the 1997 Series C, D, and E mortgage loans and only as described under this sub-heading.

During each six-month period, the 1997 Series D 2027 Term Bonds are subject to such redemption in the aggregate amount equal to the Tax Required Prepayment Redemption Amount, which is designed to include the principal prepayments subject to the Ten-Year Rule. The "Tax Required Prepayment Redemption Amount" is the amount equal to the product of (A) the Applicable Percentage, and (B) the Available Principal Prepayments. The "Applicable Percentage" for any period of time is as follows: Prior to June 1, 2000 - 13%; June 2, 2000 to June 1, 2007 - 32% and after June 1, 2007 - 61%.

The 1997 Series E 2028 Term Bonds are subject to mandatory redemption from Available Principal Prepayments in the aggregate amount during each six-month period equal to the lesser of (a) the remainder, if any, of such Available Principal Prepayments, less the Tax Required Prepayment Redemption Amount, or (b) the 1997 Series E Current Mandatory Amount. The "1997 Series E Current Mandatory Amount" is the amount for each semiannual period as set forth on page 47, less the aggregate principal amount of 1997 Series E 2028 Term Bonds previously redeemed pursuant to this redemption provision. The 1997 Series E Mandatory Amounts represent the principal prepayments that would be generated if the portfolio of 1997 Series C, D, and E Mortgage Loans experienced prepayments at levels equal to 65% of the Public Securities Association's standard prepayment model for 30-year mortgage loans, on a cumulative basis, and as projected under certain assumptions as to mortgage loan origination.

Revenues. Except as described below, the 1997 Series C, D and E Bonds are redeemable, at any time in whole or in part, at the option of the Authority, in a principal amount not in excess of Revenues (derived in connection with any series of Bonds) in the General Receipts Fund. "Revenues" is defined to include amounts transferred to the Redemption Fund from the Capital Reserve Fund.

The 1997 Series D June 2028 Term Bonds and the 1997 Series D December 2028 Term Bonds are subject to redemption from Revenues received with respect to any series of Bonds, but only on or after December 1, 2007, unless there are no other 1997 Series C Bonds and 1997 Series D Bonds Outstanding and such redemption is required to satisfy the Ten-Year Rule. The 1997 Series E 2028 Term Bonds are subject to redemption from Revenues received with respect to any series of Bonds, but only in an amount equal to the remainder, if any, of (i) the then-current 1997 Series E Current Mandatory Amount, less (ii) the remainder, if any, of the then-current Available Principal Prepayments, less the then-current Tax Required Prepayment Redemption Amount. The 1997 Series E 2004 Term Bonds are not subject to redemption from Revenues.

Optional Redemption Provisions: December 1, 2007 @ 101.5%, December 1, 2008 @ 100.75% and December 1, 2009 and thereafter at par for all bonds except the Series E Bonds maturing December 1, 2020, which are not subject to optional redemption.

INDENTURE: Single Family Mortgage Revenue Bonds

BOND SERIES: 1998 Series B and C

LIST OF UNSCHEDULED REDEPMTIONS: See pages 50 and 51.

Special Redemption Provisions: There are no uncommitted original bond proceeds. The 1998 Series B and C are subject to special redemption as described under this heading, at a redemption price equal to the principal amount thereof plus accrued interest to the redemption date.

Principal Prepayments. Except for required redemptions described below under "Super Sinker Redemption," the Bonds are redeemable, at any time in whole or in part, at the option of the Authority, in a principal amount not in excess of principal prepayments (including principal prepayments received with respect to mortgage loans financed from any series of Bonds). The Bonds to be so redeemed shall be selected from the outstanding maturities of the Bonds as shall be determined by the Authority, except that the Super Sinker Bonds shall be subject to redemption from principal prepayments only as described below under "Super Sinker Redemption" until all other Bonds are no longer outstanding or have been called for redemption unless otherwise required to maintain the tax-exempt status of interest on the Bonds.

Super Sinker Redemption. The Super Sinker Bonds are subject to mandatory redemption, from certain scheduled principal repayments on mortgage loans and principal prepayments received with respect to mortgage loans to the extent actually received ("Available Amounts"), in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time or times (but at least once during each six-month period ending on a June 1 or a December 1), as described below. However, "Available Amounts" do not include schedule principal repayments and principal prepayments that, in accordance with the General Resolution, are not available for Bond redemptions except redemptions to satisfy Sinking Fund Requirements. The redemptions described in this paragraph of the Super Sinker Bonds must be in an aggregate amount during each semiannual period equal to the Mandatory Redemption Amount. The "*Mandatory Redemption Amount*" is the lesser of (a) the positive difference between the aggregate Available Amounts during such six month period and the aggregate principal amount of Bonds maturing and subject to redemption from sinking fund requirements during such six-month period, and (B) the Current Mandatory Amount. The "*Offered Bonds Current Mandatory Amount*" is the amount for each semiannual period as set forth below less the aggregate principal amount of Super Sinker Bonds previously redeemed pursuant to this redemption provision.

The Mandatory Amounts represent the scheduled principal repayments and principal prepayments that would be generated if the portfolio of Mortgage Loans experienced prepayments at levels between 35% and 100% PSA, on a cumulative basis, and as projected under certain assumptions as to mortgage loan originations. However, because the maturity schedule of the Bonds has been structured based on an assumption that principal repayments and principal prepayments received up to 35% PSA will be applied to pay maturing principal (including Sinking Fund Requirements) of the Bonds, only principal repayments and principal prepayments in excess of 35% PSA will be available to redeem the Super Sinker Bonds pursuant to the redemption provision described under this heading. The mandatory amounts, which are included on page 50, will be proratably reduced if any bonds are called from unused proceeds.

Revenues. The Bonds are redeemable, at any time in whole or in part, at the option of the Authority, from excess revenues (derived in connection with any series of Bonds) and the Bonds to be redeemed shall be determined by the Authority, except that the Super Sinker Bonds shall not be subject to redemption from excess revenues unless all other Bonds have been call for redemption.

Optional Redemption Provisions: November 1, 2008 @ 101%, November 1, 2009 @ 100.5% and November 1, 2010 and thereafter at par for all bonds except the Series B bonds maturing on December 1, 2030 which are not subject to optional redemption.

10-Year Rule Requirement: The percentage of mortgage principal receipts from loans funded by the 1998 Series B and C Bonds that is restricted pursuant to the 10-year rule is 4.5% from date of issuance to November 9, 2008, at which time it will increase to 100%.

INDENTURE: Single Family Mortgage Revenue Bonds

BOND SERIES: 1999 Series B-1 and B-2

LIST OF UNSCHEDULED REDEPMTIONS: See pages 55 and 56.

Special Redemption Provisions: There are no uncommitted original bond proceeds. The 1999 Series B-1 and B-2 Bonds are subject to special redemption as described under this heading, at a Redemption Price equal to the principal amount thereof plus accrued interest to the redemption date.

Principal Prepayments. Except for required redemptions described below under "PAC Bond Redemption," the Bonds are redeemable, at any time in whole or in part, at the option of the Authority, in a principal amount not in excess of principal prepayments (including principal prepayments received with respect to mortgage loans financed from any series of Bonds). The Bonds to be so redeemed shall be selected from the outstanding maturities of the Bonds as shall be determined by the Authority, except that the PAC Bonds shall be subject to redemption only as described below under "PAC Bond Redemption" until all other Bonds are no longer outstanding or have been called for redemption unless otherwise required to maintain the tax-exempt status of interest on the Bonds.

PAC Bond Redemption. The PAC Bonds (Series B-1, 12-01-27 maturity) are subject to mandatory redemption from certain scheduled principal repayments on mortgage loans and principal prepayments received with respect to mortgage loans to the extent actually received ("Available Amounts"), in whole or in part at the principal amount thereof plus accrued interest to the redemption date, at any time or times (but at least once during each six-month period ending on a June 1 or a December 1), as described below. However, "Available Amounts" do not include scheduled principal repayments and principal prepayments that, in accordance with the General Resolution, are not available for Bond redemptions except redemptions to satisfy Sinking Fund Requirements. The PAC Bonds must be redeemed from Available Amounts when the outstanding principal amount of the PAC Bonds is in excess of the "PAC Outstanding Amount" for each semi-annual period. The "PAC Outstanding Amounts" as of each June 1 and December 1 are shown on page 55. The PAC Bonds Outstanding Amounts have been calculated based upon assumptions that include, among other assumptions, that principal prepayments with respect to the mortgage loans made from the proceeds of the Series B-1 and B-2 Bonds will be received at a rate equal to 75% of the prepayment experience for 30-year fixed-rate mortgage loans set forth in the "Survivorship and Decrement Table for HUD/FHA Home Mortgage Insurance dated June 30, 1991".

Revenues. The Bonds are redeemable, at any time in whole or in part, at the option of the Authority, from excess revenues (derived in connection with any series of Bonds) and the Bonds to be redeemed shall be determined by the Authority, except that the Super Sinker Bonds shall not be subject to redemption from excess revenues unless either (a) the amount of PAC Bonds outstanding exceeds the PAC Outstanding Amount for such semi-annual period or (b) all other 1999 Series B-1 and B-2 Bonds are no longer outstanding.

Optional Redemption Provisions: At par beginning June 1, 2010.

10-Year Rule Requirement: The percentage of mortgage principal receipts from loans funded by the 1999 Series B-1 and B-2 Bonds that is restricted pursuant to the 10-year rule is 50% until June 1, 2004. It increases in several steps thereafter until reaching 100% on June 1, 2007.
